Please note down the following points:

7. Exams are a crucial part of education and the source of stress for many students. In order to avoid crippling anxiety from these pesky evaluations, it is important to approach them with a clear mind and an understanding of how to deal with stressful situations more broadly.
8. Winters are not just about braving the chill in the air and stepping out of your cosy blanket. What the season also brings with itself are a host of illnesses. So, before the illnesses knock our kids door, just take good care of them, have good diet.
9. Winter brings one more thing in Delhi-NCR, POLLUTION. Recent data released by the World Health Organization (WHO) shows that air pollution has a vast and terrible impact on child health and survival. Consult doctor for any unusual symptom of illness.
10. The facility of internet is required to monitor the usage of this wonderful technology by your ward so that he/she does not misuse the internet access. It is advisable to route your child's E-mail through your account and share their password. Also, keep the computer in a central family location, not in the child's room. The usage of computer should be a family activity.
11. As winter School timings are from 7.55 am to 2.25 pm, not send your ward before 7.45 am
12. Encourage your ward to read good books or play games, instead of viewing TV.
13. Parents are also requested to send only candies on their wards' birthdays (avoid packed food or aerated drinks). Students from class VI onwards should be in school uniform even on their birthday.

Head Mistress

Central Board of Secondary Education (CBSE) has apprised all its affiliated schools to use latest political map of India. Maps are an essential part of Social Science curriculum; hence we are sharing the latest political map prepared by the Survey of India (also available on their official website).
